At a glance guide

Find out which shower is best for you

**Low pressure - gravity system**
You’ll know you have this system if:
- There’s a cold water tank in your loft and a hot water cylinder in your airing cupboard.

**High pressure - mains pressure combination boiler**
You’ll know you have this system if:
- You have a boiler the size of a small kitchen cupboard somewhere in your house – you won’t have hot and cold water tanks.

**High pressure - mains pressure unvented**
You’ll know you have this system if:
- You have a boiler the size of a small kitchen cupboard somewhere in your house.

**Cold mains supply**
You’ll know you have this system if:
- You don’t have stored hot water at all or, don’t want to use up all the hot water when you have a shower.

---

### Key technologies

**Mira Magni-flo™**
The unique patented technology of Magni-flo™ provides our mixers with up to 3 times more water flow than similar mixer showers*, even at low pressure. Making Mira Mixers the most powerful mixers available in the UK today.

*When tested under identical conditions against a range of other mixers at 0.1 bar pressure, which is normal in homes with low pressure. Results show that mixers with Magni-flo™ can give up to 3 times more flow than mixers from other shower companies.

**Mira Thermostatic**
Ensures that the temperature stays within +/-2 degrees, a safety feature that makes these showers ideal for those who have young or elderly family members.

**Mira Opti-flo™**
Gives you a wider selectable flow range which means you can enjoy the full power of the shower even in the summer months when the incoming water temperature is higher.

**Mira Sensi-flo™**
Prevents scalding in the event of a loss of water pressure or if the showerhead or hose become blocked.

**Mira Clearscale™**
Incorporates Mira DualElement™, phased shutdown and rub-clean nozzles to cut limescale by 50% so the shower performs better and lasts longer.

**Mira DualElement™**
The heater tank runs at cooler temperatures than conventional technology providing constant power throughout the element which reduces “hot spots” where limescale can accumulate.

---

### Guarantees

We are confident that you will enjoy many years of trouble free service as all our products are manufactured to the highest standards. Guarantees come as standard at Mira – simply look out for the symbols.

---

### Many of our showers are suitable for all house systems – just look out for the symbol.

Making the everyday, extraordinary
90 years of curiosity means we’ve learnt a lot about water. About how to make it invigorating, refreshing and soothing. We’ve used this expert knowledge to create some of the most exquisite and innovative designs in showering, from our digital showers to elegant taps and accessories. And now it’s time to find the ones most perfect for you.

Follow steps 1, 2 and 3, then discover more about the shower that’ll be just right for your household.
Choosing your shower

Step 1: What kind of water system do you have?

Low pressure gravity system
You’ll know you have this system if:
There’s a cold water tank in your loft and a hot water cylinder in your airing cupboard.
We recommend:
• Mixer showers (with optional pump for stronger flow)
• Digital mixer showers
• Power showers

High pressure - mains pressure combination boiler
You’ll know you have this system if:
You have a boiler the size of a small kitchen cupboard somewhere in your house – you won’t have hot and cold water tanks.
We recommend:
• Mixer showers
• Digital mixer showers
• Energy-saving eco showers

High pressure - mains pressure unvented
You’ll know you have this system if:
You have a boiler the size of a small kitchen cupboard somewhere in your house.
We recommend:
• Mixer showers (for a powerful flow)
• Digital mixer showers (for a powerful flow)
• Energy-saving eco showers

Cold mains supply
You’ll know you have this system if:
You don’t have stored hot water at all or, don’t want to use up all the hot water when you have a shower.
We recommend:
• Electric showers (the higher the kW rating, the stronger the flow)
• Pumped Mira Elite ST for low pressure cold water supplies*

*Must be tank fed

At a glance

Compatible with all systems.
Mains pressure combination boiler. Mains pressure unvented. Low pressure gravity with pump.
Low pressure gravity system.
Cold mains supply only.

NOTE: If in doubt, give us a call or contact a qualified plumber.

www.mirashowers.co.uk
Step 2: What type of shower do you need?

If you’re replacing a shower and you don’t want to re-tile, it’s worth checking the position of the hot and cold water pipes and the shape and size of the replacement shower. That way you’ll be sure that the new shower fits over the old screw holes and onto the pipework. To make life easier, some of our mixer showers have adjustability on the inlet pipe centres.

Mixer showers
Mixer showers take water from both your hot and cold water supplies and mix it to create your ideal temperature.
• Most Mira mixers feature Magni-flo™ which provides up to 3x more flow even on low pressure
• Optional Mira twin enduro pumps for low-pressure systems
• Range of styles and sizes
• Choice of temperature control – manual, pressure balanced or thermostatic
• Most mixers work on all water systems

Power showers
Power showers take water from the stored hot and cold water supplies and mix it together to create your ideal temperature.
All-in-one power showers have an in-built pump which also boosts the flow of water.
• Choose either an all-in-one or mixer shower and pump combination
• Perfect for homes with plenty of hot water
• Not suitable for high pressure systems

Digital mixer showers
Digital mixers take water from your hot and cold supplies and mix it together. The digital technology ensures you enjoy the exact temperature, every time.
• Variants available for different systems
• Stabilises temperature digitally
• Additional warm up and lock off modes
• Easy to install
• Mixer unit can be mounted away from the shower, such as in the loft
• Reduced pipework
• Remote wireless control

Electric showers*
Electric showers take water from your cold water supply and warm it by passing it safely over heating elements contained within the unit.
• Works even if your boiler fails
• Works without the need for stored hot water
• All our electric showers are approved as water efficient because they use less water
• The pumped Mira Elite ST is available for low pressure gravity systems

Eco showers
Our eco showers use flow regulators to limit the maximum flow of water, and our eco showerheads uses aerating technology to create the sensation of a normal, drenching flow while using a lot less water. Our eco showerheads are to be used with our mixer showers only.

*If you’re replacing an existing electric shower your installer will need to ensure that the installation complies with the latest wiring regulations.
Step 3: Our shower selector makes choosing easy

Low pressure gravity system
You’ll have a cold water tank in your loft and a hot water cylinder in your airing cupboard.

Do you have a good supply of hot water, for example could you fill a bath?

Are you happy using some of your stored hot water for the perfect shower?

Are you happy using some of your stored hot water for the perfect shower?

WE RECOMMEND AN ELECTRIC SHOWER

Mains pressure combination boiler
You’ll have a boiler somewhere in your house, and you won’t have hot or cold water tanks.

WE ALWAYS RECOMMEND A MIXER SHOWER OR A HIGH PRESSURE DIGITAL SHOWER
If you’ve got a combination boiler, always fit a mixer shower for great performance and the perfect shower experience

Mains pressure unvented system
You’ll have a hot water cylinder in your airing cupboard but no cold water tank in your loft.

Are you happy using some of your stored hot water for the perfect shower?

Showering is the most important part of my day.

I love showers, but I’ve got other things to do – like the washing up.

Is it important to be able to have a hot shower any time of the day?

Cold mains supply
You won’t have enough hot water, or don’t want to use the hot water you have to shower.

Is your mains pressure reliable?

The pressure never changes.

The pressure can vary dramatically.

WE RECOMMEND MIRA ELITE ST*  
*Must be tank fed

We recommend a mixer shower or a high pressure digital shower.

If you’ve got a combination boiler, always fit a mixer shower for great performance and the perfect shower experience.

The pressure never changes.

I love showers, but I’ve got other things to do – like the washing up.

Is it important to be able to have a hot shower any time of the day?

We recommend an electric shower.

Showering is the most important part of my day.

We always recommend a mixer shower or a high pressure digital shower.

If you’ve got a combination boiler, always fit a mixer shower for great performance and the perfect shower experience.

Would you prefer thermostatic control that gives great temperature stability.

Step 3: Our shower selector makes choosing easy
Do you take long showers or have lots of people queuing up to use it?

<table>
<thead>
<tr>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>I shower at regular times, when I know I’ll always have hot water.</td>
<td>I grab a shower when I can, so I never know if I’ll have hot water.</td>
</tr>
</tbody>
</table>

Is it important to be able to have a hot shower any time of the day?

<table>
<thead>
<tr>
<th>NO</th>
<th>YES</th>
</tr>
</thead>
<tbody>
<tr>
<td>I shower at regular times, when I know I’ll always have hot water.</td>
<td>I grab a shower when I can, so I never know if I’ll have hot water.</td>
</tr>
</tbody>
</table>

---

**Do you take long showers or have lots of people queuing up to use it?**

- **YES**
  - **WE RECOMMEND A MIXER SHOWER**
    - They give great performance but won’t drain your hot water tank as fast as an all-in-one power shower.

- **NO**
  - **WE RECOMMEND A MIXER SHOWER WITH A PUMP**
    - They take water from both your hot and cold supplies and mix it to create your perfect temperature.

**Is it important to be able to have a hot shower any time of the day?**

- **NO**
  - **WE RECOMMEND A MIXER SHOWER OR PUMPED DIGITAL SHOWER**
    - They take water from both your hot and cold supplies and mix it to create your perfect temperature.

- **YES**
  - **WE RECOMMEND MIRA ELITE ST**
    - This is an electric shower with a difference. It has an internal pump, so you can use it on low pressure systems, and it heats the cold water supply as you use it.

---

**Step 3: Our shower selector makes choosing easy**

Mixers

Mixer showers are ideal if you have lots of stored hot water, and if you have a high pressure system, a mixer shower should give you a more powerful flow than an electric one.

Mixer showers take water from your hot and cold supplies and mix them to create the perfect temperature. Most Mira mixers work on all the common UK water systems, but it’s important to check before installation. If you have a low pressure system, you can boost the flow by adding a Mira shower pump.

Mira Magni-flo™
Make your showering experience the very best it can be with our revolutionary Mira Magni-flo™ technology.

Our unique, patented Mira Magni-flo™ technology really sets our mixer showers apart. The revolutionary design provides up to 3 times* more water flow, even at low pressure. Making Mira mixers the most powerful mixers available in the UK today.

To experience the power of our Mira Magni-flo™ technology, watch our video on the Mixer showers section of our website.

*When tested under identical conditions against a range of similar mixes at 0.1 bar pressure, which is normal in homes with low pressure. Results show that mixers with Mira Magni-flo™ can give up to 3 times more flow than mixers from other shower companies.

Overview - mixer showers

We’ve got a wide range of designs to choose from. Some of these designs are available in different configurations – EV, BIR, BIV, ER and ERD, so you can choose the style and configuration to suit you.

**Dimensions:**
- Electrical Supply Lead: 1500 mm (1.5 m)
Digital showers, like mixers, take water from hot and cold water supplies and then mix them, creating your ideal temperature.

Our digital showers use separate mixer unit and shower controls. This means you can mount the slim mixer unit away from the shower, like in a loft or under a bath, reducing the amount of pipework. Plus, the shower controls take up very little space, creating an overall streamlined and sophisticated look.

Shower controls don’t get more flexible than our wireless controllers featured on pages 50 and 51. Take a look.

**Warm-up Feature**
No need to step in until the temperature is just right thanks to the warm-up feature.

**Pre-programmable**
Set your maximum temperature limit and duration of your shower or bath fill at the touch of a button.

**Multi-function**
Whether you’re showering, filling a bath or a combination of both... the choice is yours.

**Digital Display**
The digital clock display and shower timer ensure that you’ll never be late again.

**Eco Mode**
Conserve water and make a saving with the Eco setting.

The 3 parts that make up a digital shower with wireless control.
Mira Platinum

Beautifully designed and easy to use, this wireless digital shower has got it all – innovation and great looks.

Product features
- Separate temperature and flow controls
- Maximum temperature setting for increased safety
- Programmable functions: warm-up mode, clock display and Eco setting

Electrics

Our electric showers are packed with exclusive innovations, advanced technology and clever safety features.

All of our Mira electric showers use our unique and patented Mira Clearscale™ technology, which is proven to reduce the build up of limescale by up to 50%. This means your incredible Mira experience will last and last. Discover more by watching our video on the Electric showers section of our website.

A big advantage of electric showers generally, is that they don’t use any stored water at all. They only use water from your mains cold water supply, making them a great choice for most homes. They heat the water when you turn the shower on, passing it over a built-in heating element, similar to how a kettle works.

All Mira electric showers are so economical with water that they meet the stringent standards of the Bathroom Manufacturers’ Association (BMA). Just another thing that will make your showering experience even more satisfying.

Key technologies

Mira Clearscale™ incorporates DualElement™, phased shutdown and rub-clean nozzles. This reduces limescale by 50% so your shower performs better and lasts longer.

Mira Sensi-flo™ helps prevent scalding if there’s a drop in water pressure or if the showerhead or hose becomes blocked.

Mira Opti-flo™ gives you a wider range of flow rate so you can enjoy the full power of the shower. Ideal in the summer months when incoming water temperature is higher.

Mira DualElement™ the heater tank runs at cooler temperatures ensuring constant power throughout the element. This reduces ‘hot spots’ where limescale tends to accumulate.

Mira Airboost™ gives you a greater flow for a greater sensation, without using more water. Air alone boosts the power of your shower by 30%.

Power

Nothing beats the exhilaration of standing under a truly drenching flow of cleansing water. With an internal pump to boost the flow, these showers deliver this stunning experience every single time.

Power showers mix water from both your hot and cold supplies on low pressure systems to give you your ideal temperature.

If you’ve got a plentiful supply of hot water in your home, a power shower could be ideal.

If you’d like a powerful flow but would prefer a mixer shower, you can install a separate shower pump - see page 43 to find out more.

Which temperature control?

There are two different types of temperature control available for power showers:

Manual – your shower will not compensate for changes in the incoming supply of pressure and the shower temperature may change.

Thermostatic gives you great temperature control and is ideal for people who are at risk, such as the very young or elderly.
Mira Vigour Manual
True invigoration. The perfect blend of performance and price.

Product features
- Maximum temperature stop for increased safety
- Delivers an invigorating 12 litres of water a minute
- Separate temperature and flow controls
- 4-spray showerhead with rub-clean nozzles for easy limescale removal
Mira Vigour Thermostatic

True invigoration. The perfect blend of performance, price and safety.

Product features
- Maximum temperature stop for increased safety
- Delivers an invigorating 14 litres of water a minute with the reassurance of thermostatic technology
- Separate temperature and flow controls
- 4 spray showerhead with rub-clean nozzles for easy limescale removal

Mira Vigour Thermostatic
Power shower, white/chrome finish.

Enclosures

Our Mira Leap enclosures have been produced to the highest possible standard, and designed to make a stylish statement in any bathroom.

At Mira, we don’t just aim for perfection with the shower itself, but with everything that surrounds it. So for our Mira Leap enclosures and bathscreens, we thought about every single detail. Developed to the highest possible quality standards, Mira leap has strong lines, neat surfaces and invisible fixings, resulting in a stylish, contemporary aesthetic both inside and outside the enclosure. With a wide range of both doors, panels and walk-in options, there is a Mira Leap to suit any bathroom in need of an upgrade. The operation of Mira Leap is as slick as it is aesthetic, with premium double rollers and precision engineered hinges producing a consistently smooth action and feel. With a Mira lifetime guarantee, peace of mind is assured for many years to come.

Key technologies

CleanCoat® glass coating technology and cleverly hidden mechanisms make each of our Mira Leap enclosures incredibly easy to clean.

‘Twist & Lock’ is an installation system unique to Mira, removing the need to drill through the door and wall to attach fixtures, saving both time and effort. And because the fixtures are hidden, they don’t interrupt the smooth finish of the enclosure.
Mira Leap pivot door

These elegant frameless doors pivot on discreet hinges enabling part of the door to open into the enclosure, helping save space in your bathroom.

Product features

- Reversible doors with twin chrome handles
- 6mm toughened safety glass with CleanCoat® glass coating technology
- 30mm adjustment on each wall jamb for uneven walls
- Adjustable pivot blocks and twin ball catches
- No visible fixings or screwcaps for a clean & uncluttered look
- Patented ‘Twist and Lock’ screwless installation system
- Height from top of tray: 1900mm
- Lifetime guarantee

Mira recommends…

Functional yet beautiful.

If you’re thinking about removing your bath and having an enclosure fitted, we have just what you need to replace it beautifully. The products below work together so you can create a wonderful new feature for your bathroom, with everything you could need, without compromising on style or space.

**The Mira Leap 1700 double sliding doors** are beautifully designed with luxury chrome handles, and a smooth exterior.

**The Mira Flight Safe tray** is non-slip, non-chip and uses revolutionary BioCote® technology to reduce bacteria.

**The Mira Vision Dual digital shower** is the ultimate in luxury showering technology with its overhead and hand shower in one.

**The Mira Premium Shower seat** has a slim-line design and easily folds away when not needed.

---

**The Mira Vision Dual digital shower** is the ultimate in luxury showering technology with its overhead and hand shower in one.
Trays

Mira Flight shower trays are not only lighter, stronger and easier to fit, they are renowned for leading technology too.

We’ve brought the Mira Flight range right up to date with a contemporary, sleek look and a host of reassuring features you’d expect from Mira. Made from strong acrylic capped resin stone our Flight trays are incredibly robust. They’re also scratch and chip resistant and designed to keep their great colour for a lifetime.

Exclusive leading technology
Every Flight tray includes exclusive BioCote® technology which reduces bacteria and mould growth by up to 99.9%.
Mira Flight trays

**Product features**
- Scratch, chip and discolouration resistant
- Two optional riser kits featuring strong ‘push-fit’ legs for solid floor applications - flexible height or flush fit options
- White walk-on waste, which adds to the slim-line, stylish finish
- Includes BioCote® to reduce bacteria and mould growth by up to 99.9%
- Variants with integral upstands for watertight performance
- 10 year guarantee for home use

Mira Flight Low Trays

Made from durable acrylic capped, resin stone, Mira Flight Low isn’t just incredibly tough and surprisingly light, it’s also one of the lowest trays you can buy.

Our impressive low profile tray is a super thin 40mm, making it one of the lowest trays in production. It allows you to create that amazing ‘wet-room’ look in any bathroom. Mira Flight Low trays also have all the hardwearing benefits you’d expect, ensuring they’re chip and scratch resistant whilst keeping their great colour for a lifetime.

Exclusive leading technology
Each one features a Mira Flight Low waste which rapidly sucks water from the tray.

They also include exclusive BioCote® technology, proven to reduce bacteria and mould growth by up to 99.9%.

Other outstanding features include:
• Optional riser kit featuring strong ‘push-fit’ legs for solid floor applications
• A slimline waste cover
• High flow waste
• 10 year guarantee for home use
Mira Flight Low trays

Product features
- Only 40mm high
- Scratch, chip and discolouration resistant
- Optional riser kit featuring strong ‘push-fit’ legs for solid floor applications
- Includes BioCote® to reduce bacteria and mould growth by up to 99.9%
- High flow waste which rapidly sucks water from the tray from up to 25 litres a minute
- Variants with integral upstands for watertight performance
- 10 year guarantee for home use

Mira Flight Safe Trays

Developed with our exclusive Mira Safe surface, Mira Flight Safe trays exceed the most stringent independent anti-slip tests in the UK.

Designed to the same high standards as all Mira Flight trays, complete with durable acrylic and resin stone, this Flight tray features our own market leading anti-slip technology, Flight Safe. The unique surface is integral to the tray for a smooth, long lasting finish. Its surface won’t peel or rub off and is also incredibly easy to clean.
Exclusive leading technology

It boasts the same low profile as the Mira Flight Low tray, of just 40mm depth and features our BioCote® technology, which is proven to reduce bacteria and mould growth by up to 99.9%. This super sleek Mira Flight tray also has a waste as standard that rapidly drains water away from the tray.

Other outstanding features include:
• Tray has Mira Flight Safe anti-slip surface
• Easy to clean – anti-slip surface tested extensively
• The same white colour (matt finish) as other Mira Flight trays
• Optional riser kit featuring strong ‘push-fit’ legs for solid floor applications
• Optional integral upstand for water tight performance
• A slimline waste cover
• 10 year guarantee for home use
Mira Flight Safe trays

Product features
• Tray has Mira Flight Safe anti-slip surface
• Easy to clean – anti-slip surface tested extensively
• Only 40mm high
• Scratch, chip and discolouration resistant
• Optional riser kit featuring strong ‘push-fit’ legs for solid floor applications
• Waste which rapidly sucks water from the tray from up to 25 litres a minute
• Includes BioCote® to reduce bacteria and mould growth by up to 99.9%
• Variants with integral upstands for watertight performance
• 10 year guarantee for home use

Mira Flight wall panels

Flight walls are designed to complement the Mira Flight shower trays and are available in gloss white to offer a stylish contemporary finish to your bathroom. The walls are strong, durable and leak proof using patented Mira Flight technology so you can enjoy for years.

Product features
- BioCote® reduces bacteria and mould by up to 99.9%
- Corner joint provided with every panel
- Unlike other protection, BioCote® will never wear off or wash away

**Product features**

### Suitable for 760 enclosure

**760 full height wall**
- 760 x 735 mm
- Includes a corner joint
- Product code: 1.1669.100.WH
- Price: £182.40

### Suitable for 800 enclosure

**800 full height wall**
- 800 x 775 mm
- Includes a corner joint
- Product code: 1.1669.122.WH
- Price: £234.00

### Suitable for 900 enclosure

**900 full height wall**
- 900 x 875 mm
- Includes a corner joint
- Product code: 1.1669.122.WH
- Price: £234.00

### Suitable for 1200 enclosure

**1200 full height wall**
- 1200 x 1175 mm
- Includes a corner joint
- Product code: 1.1669.102.WH
- Price: £276.00

### Basin splashback

**Basin splashback**
- 600 x 250 mm
- Product code: 1.1669.071.WH
- Price: £48.00

### Bath splashback

**Bath splashback**
- 2000 x 500 mm
- Product code: 1.1669.072.WH
- Price: £160.80

### Wall panel accessories

- **Straight connector**
  - Product code: 1.1669.097.WH
  - Price: £19.20

- **Corner connector**
  - Product code: 1.1669.085.WH
  - Price: £26.40

Fantastic in a bathroom setting, see our step by step installation video online at www.mirashowers.co.uk
Full height wall panel with bath splashback
As with our showers, everything about our taps has been meticulously designed and crafted. Each one is strikingly elegant and created using only the best materials, so take a closer look.

The exciting Aspects Collection will complement any bathroom perfectly. We’ve got a wide range of styles to choose from, from contemporary shapes to more elegantly curved, or traditional designs. Yet where they all differ in form, they are identical in quality.
Mira Comfort

The Mira Comfort range takes an already renowned design and brings it right up to date with its sleek looks, robust construction and ease of use. The fluid chrome styling, meticulous attention to detail and exceptional quality all make this familiar design a real favourite for many who’re looking for an eye-catching tap that fits with any style of bathroom.

Mira Honesty

With pure cubist design at its heart, the Mira Honesty range combines hard angles with softened corners to create a ‘family-friendly’ tap with a seamless contemporary finish. However, it’s not just strong lines that make Honesty stand out – the spout gradually narrows towards the body to add a touch of refinement to its distinctive look.

Product features
- Seamless contemporary finish
- Integrated flow straightener for ease of cleaning
- Genuine performance even at low pressure

Mira Virtue

The Mira Virtue range boasts refined features that are perfect for bathrooms with a more traditional look. And, with authentic Victorian features such as crosshead blade handles and ceramic glazed markers for both hot and cold sides, Mira Virtue not only looks good and feels great but also brings a genuine sense of time-honoured style to the 21st century.

Product features

- Heritage style cross blade handles ergonomically designed to feel great in use
- Integrated flow straightener for ease of cleaning
- Genuine performance even at low pressure
- Virtue complements the Mira Realm mixer showers range (page 42)

Mira recommends…
refined and traditional.

For complete sophistication with a sense of time-honoured style, try combining the Mira Virtue tap with the stunning, handpicked selection below. Each piece is refined and beautifully classic to complete your traditional bathroom.

**The Mira Realm** shower has a beautiful classic design and a polished chrome finish.

**The Mira Leap enclosure** range is high quality in every way, from its screwless installation to its toughened safety glass.

**The Mira Flight Safe Trays** range is non-slip, non-chip and uses revolutionary BioCote® technology to reduce bacteria.

**The Mira Virtue Monobloc basin mixer** has authentic Victorian features for a genuine traditional look.
Accessories

Mira accessories are carefully designed with great attention to detail and innovative thinking.

Experience the very latest in showering technology
Our design teams are constantly developing new and exciting designs to bring you an even better showering experience. We’ve got everything, from our innovate showerheads, to our elegantly curved soap dishes and slim-line foldaway shower seats. The Mira range includes:

• Mira Eco is a water-saving showerhead that can save up to 75%* of the water your shower uses and you won’t notice any difference to the flow.
• Mira Everclear is specially designed to stop limescale building up, so your showerhead gives a consistent flow, offers great performance and a longer life.
• Mira 360 is a showerhead that literally turns showering on its head. Its simple flip action rotates the head to create four unique and invigorating sprays.

*When compared to a Mira Logic showerhead at 0.5 bar pressure. Mira Eco is not suitable for electric showers or gravity fed systems under 0.5 bar pressure.
The Mira showerhead range

Whether you’re looking for a fixed, adjustable or power showerhead, we have the model to match. All of our showerheads are universal fit, so will fit with any standard shower hose. A simple screw thread connection makes installation quick and easy.

Where to buy
To search for your local stockist and to find out where to purchase, visit: www.mirashowers.co.uk and click ‘Where to buy’ at the top of the page.

Kohler® family of businesses
We’re owned by Kohler Co, one of the world leaders in bathroom design. KOHLER has been setting the standard for innovation, craftsmanship and new technology across the globe since 1873.

Kohler in the UK brings together a number of market-leading bathroom and shower brands, including KOHLER, Mira Showers, and RADA, to bring you an inspiring collection of bathroom sanitaryware, bathroom furniture, taps, showers and shower enclosures.

If you’d like to know more about the range of KOHLER products, please visit www.kohlermira.co.uk

Approval Marques
- Awarded by the BEAB to products that have been evaluated against the highest European and International standards.
- Awarded by the BEAB to products that have been additionally tested on performance relating to application in the care sector.
- Developed by the BMA to raise awareness of bathroom products that when installed and used correctly use less water and save energy.
- Waterwise is the leading authority on water efficiency in the UK. Every year they award their Marque to products that cut back on wasted water.
- Shows that the product has been endorsed by the Royal National Institute of Blind People (RNIB).
- Certifies Type 2 Thermostatic mixing valves for the domestic market to promote the safe use of hot water, with the immediate focus on social housing.

Due to the process of continuous development, Mira reserves the right to make product and pricing changes without prior notice.
